

THE GLAZE

Our **Glaze coating** is the **hardest** available in the world, **most resistant** to alkali attacks of dishwasher detergents and mechanical abrasion. It is a **protective layer on the entire decoration.**

IN-GLAZE DECORATIONS

□

This kind of coating makes the decoration **most resistant** to alkali attacks of dishwasher detergents and mechanical abrasion.

Each in-glazed decoration is microwave safe and oven safe.

P protects from potentially hazardous chemicals washing out.

ON-GLAZE DECORATIONS

A All gold & platinum decorations are normally on glaze.

Even though it's also resistant to dishwasher detergents and scrubbing g
